

RISHAD NERO

Full-stack Web Developer

SUMMARY

Creative, detail-oriented, web developer who has built a diverse range of skills that guarantees high performance. Proven track record of creating and implementing successful front and back end web applications. Strong soft skills acquired through valuable customer service experience in the medical field and retail industry. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Full-stack Web Developer at 100devs

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Diagnose (Full-stack Web App) – Created for medical experts to share images of particular cases they would like to initiate discussions on, with other medical experts. User can create an account, post a case image, and comment on posts. Other functionalities include liking, bookmarking, and deleting posts

The Set Listener (Full-stack Web App) – After authorizing their Spotify account, users can search their favourite artist name and create a Spotify playlist of an artist's most recent show. This application functions through the use of two separate API, setlist.fm API and Spotify Web API

MyNotes (Full-stack Web App) – Users can login to their profile and share notes publicly or privately. This is a basic application with a dashboard containing different users' notes displayed publicly. Users can also delete their notes or make them private so it is only available to them, and not on dashboard

Other Projects: Small Lakes Casino Virtual Slot Machine, Los Angeles StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more

Technical Support Assistant at Providence Healthcare

December 2020 — March 2022

- Excellent problem-solving skills used to assist patient and staff with use of company software and hardware
- Strong leadership and team-work capability required to allow for a successful and stress-free large scale communication between elderly residents and their loved ones
- Attention to detail and ability to set priorities to meet deadlines allowed for work to be done effectively under minimal supervision
